For the past 20 years, Kristi Moya, an award-winning Art Director and Graphic Designer, has devoted her talents to expressing beauty and energy in unexpected fusions of color, texture, image and balance. Now, she is turning her extraordinary vision to the medium of film with the evolution of Born of Woman Films, Inc. Her passion to establish the role of food as a source of nourishment for both body and soul inspired her to write, produce and direct her debut film, *Edible*.
